

George — Asian Peptide Supplier Qualification

Public-evidence screening converted into a controlled due-diligence programme
Decision date: 20 August 2026 | Not a supplier approval or SAHPRA authorization

DECISION SNAPSHOT			
Manufacturers screened	10	Conditional Tier A	1
10 entities		RFI priority only	
Laboratories screened	4	Open RFI items	78
4 sites/networks		Live tracker	
		Tier B manufacturers	9
		Enhanced diligence required	
		No-go risks	10
		Automatic hold criteria	

FIRST-WAVE DECISIONS

#	Decision	Required action	Gate
1	Issue manufacturer RFIs	ScinoPharm, Hybio, Pramal and WuXi, plus one molecule-matched API comparator.	RFI issuance only, no PO or supply award.
2	Issue laboratory RFIs	Vimta first, SGS Shanghai and Eurofins Kyoto/Kobe in parallel.	Method/site qualification and blind split-sample exercise required.
3	Keep Intertek bounded	Do not use Mumbai as sole release laboratory on current evidence.	Current verified accreditation scope is non-pharmaceutical.
4	Commission SA regulatory gap review	Fix applicant, importer, licences, dossier/LoA, testing/release, GDP, PV and recall roles.	No commercial or registration shipment until lawful pathway is confirmed.
5	Run 90-day qualification	Document review, technical assessment, audits, laboratory exercise, CAPA and board decision.	Re-score using confidential evidence; public scores expire at the decision board.

WORKBOOK CONTENTS

- [Manufacturer Screen](#)
- [Laboratory Screen](#)
- [RFI Tracker](#)
- [90-Day Plan](#)
- [Risk & No-Go](#)
- [Source Register](#)

USE AND CONTROL NOTE

This workbook is a controlled prequalification tool. Tier and score results reflect public evidence only. No supplier, site, product, method, laboratory, batch or transport lane may be approved solely from this file. Final disposition requires regulator-verifiable primary documents, site and method audits, validated testing, quality/technical agreements, a lawful SAHPRA route and formal cross-functional approval.

Asian Peptide Manufacturer Screen

Transparent 100-point public-evidence comparison; Tier A is diligence priority, not approval

[illegible]

SCORING WEIGHTS AND INTERPRETATION

[illegible]

Independent Laboratory Qualification Screen

Each site and method requires primary-scope verification, audit, method qualification and split-sample evidence

No third-party laboratory substitutes for manufacturer GMP-registered specifications or authorized batch release

ID	Laboratory	Country	Site	Score	Tier	Verified Evidence Boundary	Peptide-Relevant Methods	Preliminary Role	Qualification Status	RFI Owner	Audit Status	Split-Sample Result	Final Disposition
L01	SGS Shanghai Health Science Laboratory	China	Yishan Road, Shanghai	66	B	CMA certificate includes site through 2029; claimed ISO/IEC 17025/CNAS scope annex not obtained; company reports 2024 FDA inspection with no 483, but official EURL assessment unavailable	Strong conditional E&L: potential LC-MS, HPLC/UPLC, residual solvents, elemental impurities, microbiology and sterility. Water, counter-ion, particulates, CO ₂ and excipients not site-verified	Specialist/conditional RFI; not sole release laboratory	Not Started		Not Started	Not Run	Hold
L02	Eurofins Analytical Science Laboratories, Kyoto and Kobe	Japan	Kyoto and Kobe, Japan	64	B	PMDA 2024 Kyoto compliant result for undisclosed application scope; Kyoto FDA 2024 Form 483 unresolved; no site ISO 17025 scope verified; Kobe authority unknown	Broad LC-MS sequence/identity, HPLC/UPLC, GC, KF, ICP, microbiology/identity, particulates, stability, CO ₂ and E&L potential; exact site/method allocation required	Specialist/conditional; site- and method-specific audit required	Not Started		Not Started	Not Run	Hold
L03	Vintia Labs Limited, Life Sciences Facility	India	Genome Valley, Hyderabad	70	B	Current NABL ISO/IEC 17025 certificate through 2028 but annex absent; current WHO-prequalified QCL listing: exact-site FDA 2023 (IA); voluntary GMP stability scope through 2027	Strong conditional LC-MS/intact mass, HPLC/UPLC/SEC, elemental, microbiology, sterility, endotoxin, particulates and stability. CO ₂ /excursion not verified	Priority laboratory RFI; blind split-sample qualification before use	Not Started		Not Started	Not Run	Hold
L04	Intertek Pharmaceutical Services India, Mumbai	India	Tex Centre, Andheri East, Mumbai	46	C	Current IAS ISO 17025 scope is environmental, not pharmaceutical; prior NABL scope expired and was non-pharma; claimed MH-FDA approval lacks primary certificate; no FDA site record verified	Marketing-supported HPLC, LC-MS/MS, GC, ICP, stability and E&L research potential, but required peptide and microbiology methods lack current site-specific regulated scope	Do not use as sole release lab; RFI only for bounded specialist research pending primary licences/scopes	Not Started		Not Started	Not Run	Hold

MINIMUM METHOD-QUALIFICATION DOMAINS

Domain	Required evidence
Identity / sequence	LC-MS intact mass and peptide mapping; sequence coverage; orthogonal identity; <u>stability/modification confirmation</u>
Assay / purity	Stability-indicating HPLC/UPLC, related substances; response factors; LOQ; forced degradation and mass balance
Process residuals	Residual solvents, counter-ion, water, elemental/genotoxin/nitrosamine and <u>residuals-derived impurities as applicable</u>
Micro / sterile	Bioburden, endotoxin, microbial limits, sterility, particulates and method suitability for the <u>exact matrix</u>
Container / device	CO ₂ , E&L, silicone/lungsten, dose accuracy and component compatibility where relevant
Stability / excursions	Mapped chambers, alarms, ICH conditions, freeze/thaw, light/dark and temperature- <u>excursion protocol</u>
Data integrity	Native files, metadata, audit trails, integration history, access roles, backup/retrieve, OOS/OOT/CAPA and raw-data rights
Custody / retains	Tamper seals, logger review, receipt checks, LIMS traceability, controlled aliquots, retains and no unapproved subcontracting

Supplier and Laboratory Due-Diligence RFI Tracker

Controlled request list for product-, site-, batch-, method- and lane-specific qualification

Complete each field, use Unknown / Not Applicable explicitly, high-priority share is intentionally limited

Request ID	Workstream	Detailed Request	Priority	Applies To	Target Entity	Gate	Owner	Status	Date Requested	SLA Days	Due Date	Date Received	Review Outcome	Evidence Link	Days Outstanding	Notes
RF1-001	Corporate & Legal	Provide contracting entity, all manufacturing/testing affiliates, corporate numbers, ownership/UBO and authorized signatures	High	Manufacturers		Pre-audit		Not Started		10			Pending			
RF1-002	Corporate & Legal	Provide legal title to lease evidence for each proposed site and reconcile every address across licenses, FEI, certificates and invoices	High	Manufacturers & Laboratories		Pre-audit		Not Started		10			Pending			
RF1-003	Corporate & Legal	Provide current organization charts for corporate, site quality, production, QC, regulatory, supply and pharmacovigilance interfaces	Medium	Manufacturers & Laboratories		Pre-audit		Not Started		10			Pending			
RF1-004	Corporate & Legal	Provide audited financial statements, insurance certificates, business-continuity funding and material litigation/settlement disclosures	Medium	Manufacturers		Pre-contract		Not Started		10			Pending			
RF1-005	Corporate & Legal	Declare all brokers, agents, distributors and consultants in the proposed transaction and confirm no therapeutic material is sourced from traders	High	Manufacturers		No-Go		Not Started		10			Pending			
RF1-006	Corporate & Legal	Provide anti-bribery, sanctions, export-control, modern-slavery and conflict-of-interest declarations	Medium	Manufacturers & Laboratories		Pre-contract		Not Started		10			Pending			
RF1-007	Regulatory & Licences	Provide current local manufacturing/testing licenses and every annex for the exact legal entity, address, building, activity and design lists	High	Manufacturers & Laboratories		No-Go		Not Started		10			Pending			
RF1-008	Regulatory & Licences	Provide current GMP/GDP/GSP/GSD certificates and full scope schedules, with issuing-body verification links and expiry/dates	High	Manufacturers & Laboratories		Pre-audit		Not Started		10			Pending			
RF1-009	Regulatory & Licences	List the last three separate inspections for each proposed site, including dates, authority, scope, observations, responses, EIR/final classification and commitments	High	Manufacturers & Laboratories		Pre-audit		Not Started		10			Pending			
RF1-010	Regulatory & Licences	Disclose all warning letters, import alerts, non-compliance statements, recalls, suspensions, license restrictions and regular commitments for ten years	High	Manufacturers & Laboratories		No-Go		Not Started		10			Pending			
RF1-011	Regulatory & Licences	Provide evidence of disclosure and CAPA effectiveness for every public adverse event identified in the Georgia research report	High	Manufacturers & Laboratories		Pre-contract		Not Started		10			Pending			
RF1-012	Regulatory & Licences	Provide product specific GDP / GMP / GDP / GDP / LSA, approved dossier references and current status, distinguish filing from approval	High	Manufacturers		Pre-audit		Not Started		10			Pending			
RF1-013	Regulatory & Licences	Provide a country-by-country list of products actually supplied from the proposed site, with approved/dossier evidence and no inferred customers	Medium	Manufacturers		Pre-contract		Not Started		10			Pending			
RF1-014	Regulatory & Licences	Confirm whether the proposed product/site has any SAMPPA history, inspection, dossier change, deficiency questions or final partner relationships	High	Manufacturers		Pre-contract		Not Started		10			Pending			
RF1-015	Regulatory & Licences	Provide all regulatory change commitments affecting route, site, raw material, specification, method, container, device, storage or shelf life	High	Manufacturers		Pre-contract		Not Started		10			Pending			
RF1-016	Product & Site Genealogy	Define the exact peptide, sequence, salt/couster-ion, grade, dosage form, strength, presentation, annual volume and target markets	High	Manufacturers		Pre-audit		Not Started		10			Pending			
RF1-017	Product & Site Genealogy	Map every physical site, building, room, line and equipment train for synthesis, purification, isolation, filling, labeling, release, storage and export	High	Manufacturers		No-Go		Not Started		10			Pending			
RF1-018	Product & Site Genealogy	Map every sterile formulation, filtration, filling, lyophilization, sterilization, device assembly, packaging and serialization site where applicable	High	Manufacturers		No-Go		Not Started		10			Pending			
RF1-019	Product & Site Genealogy	Identify the sign-off/chain-of-custody and responsible quality roles for API, drug product, device and final packaged product	High	Manufacturers		Pre-contract		Not Started		10			Pending			
RF1-020	Product & Site Genealogy	Describe the research/tech-GMP-to-GMP transfer boundary and prove that no research-use material enters therapeutic manufacturing	High	Manufacturers		No-Go		Not Started		10			Pending			
RF1-021	Product & Site Genealogy	Provide the proposed registered supply-chain diagram and reconcile it to contracts, licenses, quality agreements and shipping documents	High	Manufacturers		Pre-contract		Not Started		10			Pending			
RF1-022	Process & Validation	Provide overall process flow, synthesis route, scale, CPPs, CGMs, in-process controls, hold times and material balance	High	Manufacturers		Pre-audit		Not Started		10			Pending			
RF1-023	Process & Validation	Provide three PPQ or representative commercial-scale batch records and summary reports for the proposed batches	High	Manufacturers		Pre-contract		Not Started		10			Pending			
RF1-024	Process & Validation	Provide CPV/QP/RP/RQ trends for purity, potency, critical impurities, deviations, OOS/OOT, excipients and changes for 36 months	High	Manufacturers		Pre-contract		Not Started		10			Pending			
RF1-025	Process & Validation	Provide capacity, packaging and control strategy for distillations, fermentations, extractions, spinners, oxidation, nanofiltration/ultrafiltration and aggregation	High	Manufacturers		Pre-audit		Not Started		10			Pending			
RF1-026	Process & Validation	Provide controls for residual protecting groups, scavengers, coupling reagents, counter-ion, solvents, elemental impurities/contaminants and residual/leachables	High	Manufacturers		Pre-audit		Not Started		10			Pending			
RF1-027	Process & Validation	Provide clearing validation, HPLC/coupler rationale, campaign strategy and shared-alignment product matrix	High	Manufacturers		No-Go		Not Started		10			Pending			
RF1-028	Process & Validation	List all reprocessing, rework, physical yield and two-purity batches for 36 months with approved rationale and outcome	Medium	Manufacturers		Pre-contract		Not Started		10			Pending			
RF1-029	Process & Validation	Provide equipment-specific qualification, preventive maintenance, calibration, alarms, backup, utilities and disaster recovery for critical items	Medium	Manufacturers		Pre-contract		Not Started		10			Pending			
RF1-030	Analytical & Data Integrity	Provide the registered release and stability specification, pharmacopeial commitments and high method fit for API and drug product	High	Manufacturers & Laboratories		Pre-audit		Not Started		10			Pending			
RF1-031	Analytical & Data Integrity	Provide method validation/verification/transfer reports for identity, assay, purity, related substances and all applicable residual/purity/critical/controlled tests	High	Manufacturers & Laboratories		Pre-contract		Not Started		10			Pending			
RF1-032	Analytical & Data Integrity	Provide reference standard qualification, potency/potency/assay/identity/related tests, traceability, storage, release and reconciliation controls	High	Manufacturers & Laboratories		Pre-contract		Not Started		10			Pending			
RF1-033	Analytical & Data Integrity	Provide representative CoUs and complete native raw-data packages, including chromatograms, spectra, metadata, audit trails and integration history	High	Manufacturers & Laboratories		Pre-audit		Not Started		10			Pending			
RF1-034	Analytical & Data Integrity	Provide OOS, OOT, deviation, investigation, retest/sample and CAPA metrics and case data for 36 months	High	Manufacturers & Laboratories		Pre-audit		Not Started		10			Pending			
RF1-035	Analytical & Data Integrity	Provide chromatography and laboratory-system user-role matrices, administrator independence, audit-trail review and deleted/aborted sequence controls	High	Manufacturers & Laboratories		No-Go		Not Started		10			Pending			
RF1-036	Analytical & Data Integrity	Provide computerized-system inventory, validation status, backup/recovery tests, cybersecurity controls, data retention and disaster recovery	Medium	Manufacturers & Laboratories		Pre-contract		Not Started		10			Pending			
RF1-037	Analytical & Data Integrity	Identify every subcontracted test, physical site, method, regulated scope, raw-data owner and quality agreement	High	Manufacturers & Laboratories		No-Go		Not Started		10			Pending			
RF1-038	Raw Materials & Supply Network	Provide manufacturer, site and country of origin for each protected/non-protected active and quality agreement	High	Manufacturers		Pre-audit		Not Started		10			Pending			
RF1-039	Raw Materials & Supply Network	Provide manufacturer, site chain and critical building block	High	Manufacturers		Pre-contract		Not Started		10			Pending			
RF1-040	Raw Materials & Supply Network	Provide approved supplier list, qualification/audit status, quality agreements, incoming specification and change-notification terms for critical materials	High	Manufacturers		Pre-contract		Not Started		10			Pending			
RF1-041	Raw Materials & Supply Network	Identify single-source items, second-source qualification status, safety-stock days, lead times and allocation rights	High	Manufacturers		Pre-contract		Not Started		10			Pending			
RF1-042	Raw Materials & Supply Network	Provide residual/leachables, clear impurity, TSE/BSE, elemental, nitrosamine/genotoxic and solvent/origin risk assessments	Medium	Manufacturers		Pre-contract		Not Started		10			Pending			
RF1-043	Raw Materials & Supply Network	Provide environmental and recovery controls for antibiotics, DMF/NMP/DCM, TFA, scavengers, coupling reagents and chromatography media	Medium	Manufacturers		Pre-contract		Not Started		10			Pending			
RF1-044	Raw Materials & Supply Network	Map all subcontractors for external testing, sterilization, storage, device/components, packaging, transport and final release	High	Manufacturers		No-Go		Not Started		10			Pending			
RF1-045	Raw Materials & Supply Network	Provide capacity, utilization, campaign calendar, purification/lyophilizer bottleneck, reserved capacity and usage plan for the forecast demand	High	Manufacturers		Pre-contract		Not Started		10			Pending			
RF1-046	Raw Materials & Supply Network	Provide alternate termini status, dossier readiness, transfer package, recovery time objective and recent BCP exercise evidence	High	Manufacturers		Pre-contract		Not Started		10			Pending			
RF1-048	Sterile, Device & Packaging	Provide contamination-control strategy, facility flow diagrams, cleanroom grades, isolator/ROBO qualification and utility monitoring	High	Sterile Manufacturers		Pre-audit		Not Started		10			Pending			
RF1-047	Sterile, Device & Packaging	Provide IFS/media fill maps and reports, including interventions, shifts, container sizes, identifier labeling and final/finished use	High	Sterile Manufacturers		No-Go		Not Started		10			Pending			
RF1-048	Sterile, Device & Packaging	Provide environmental-monitoring, sterility, bioburden and endotoxin trends with excursions, investigations and CAPA	High	Sterile Manufacturers		Pre-contract		Not Started		10			Pending			
RF1-049	Sterile, Device & Packaging	Provide environmental/sterilization, line validation, integrity testing and PUPSIT rationale where applicable	High	Sterile Manufacturers		Pre-contract		Not Started		10			Pending			
RF1-050	Sterile, Device & Packaging	Provide validation/sterile particle control, COI method/validation through shelf life and transport, and glass/sterilization risk	High	Sterile Manufacturers		Pre-contract		Not Started		10			Pending			
RF1-051	Sterile, Device & Packaging	Provide EAL Studies, toxicological assessments, container/component CoUs, allomergens and compatibility controls	High	Sterile Manufacturers		Pre-contract		Not Started		10			Pending			
RF1-052	Sterile, Device & Packaging	Identify device/sterile component manufacturers, ISO certificates, assembly site, clean-accuracy/human-factors evidence and complaint interface	High	Device Chains		No-Go		Not Started		10			Pending			
RF1-053	Sterile, Device & Packaging	Provide packaging artwork, tamper evidence, serialization, label-control, reconciliation and South Africa configuration responsibilities	Medium	Manufacturers		Pre-shipment		Not Started		10			Pending			
RF1-054	Stability, Cold Chain & Logistics	Provide ICH long-term, accelerated, stress, photostability and forced-degradation data for at least three representative batches	High	Manufacturers		Pre-contract		Not Started		10			Pending			
RF1-055	Stability, Cold Chain & Logistics	Provide bulk test, freeze/thaw, freeze, reconciliation and shipping-excursion studies applicable to the proposed presentation	High	Manufacturers		Pre-contract		Not Started		10			Pending			

RF1-056	Stability, Cold Chain & Logistics	Define approved storage, transport range, excursion limits, decision tree, authorized depositor roles and stability data supporting each limit.	High	Manufacturers	Pre-shipment	Not Started	10	Pending
RF1-057	Stability, Cold Chain & Logistics	Provide packaging qualification reports, thermal profiles, seasonal challenge, logger placement and failure-mode assessment.	High	Manufacturers	Pre-shipment	Not Started	10	Pending
RF1-058	Stability, Cold Chain & Logistics	Design and execute a qualified route-to-South Africa lane including customs-duty simulation, backup routing and reworking qualification.	High	Manufacturers	Pre-shipment	Not Started	10	Pending
RF1-059	Stability, Cold Chain & Logistics	Provide carrier, freight forwarder, airline, customs broker, cold store and last-mile qualification/audit records and quality agreements.	High	Manufacturers	Pre-shipment	Not Started	10	Pending
RF1-060	Stability, Cold Chain & Logistics	Define tamper-evident seals, chain of custody, shipment IDs, calibrated logger controls, receipt checks and discrepancy escalation.	High	Manufacturers & Laboratories	Pre-shipment	Not Started	10	Pending
RF1-061	Stability, Cold Chain & Logistics	Provide results/monitoring/inspection responsibilities and traceability exercise results for the proposed chain.	High	Manufacturers	Pre-shipment	Not Started	10	Pending
RF1-062	South Africa & Commercial	Define proposed South African application/registration holder, importer, wholesaler/distributor and responsible quality/pharmaceuticals roles.	High	Manufacturers	Pre-contract	Not Started	10	Pending
RF1-063	South Africa & Commercial	Provide CTX/ANMP/CEP support plan, letters of access, deficiency response support and inspection commitments.	High	Manufacturers	Pre-contract	Not Started	10	Pending
RF1-064	South Africa & Commercial	Confirm local testing/release, GDP storage, complaints, recalls, PIV and change-notification responsibilities in the registered arrangement.	High	Manufacturers	Pre-contract	Not Started	10	Pending
RF1-065	South Africa & Commercial	Provide Product Classification proposal, import permits/licenses, Incoterms, insurance, customs documents and port/airport route.	Medium	Manufacturers	Pre-shipment	Not Started	10	Pending
RF1-066	South Africa & Commercial	Provide pricing architecture, MOQ, lead time, capacity reservation, payment currency, price-adjustment formula and change-allocation terms.	Medium	Manufacturers	Pre-contract	Not Started	10	Pending
RF1-067	South Africa & Commercial	Accept audit rights, regulator access, sponsor/subcontractor disclosures, prior change approval, recall support and full raw-data access.	High	Manufacturers & Laboratories	No-Go	Not Started	10	Pending
RF1-068	South Africa & Commercial	Accept technology transferred assistance, ultimate-site milestones, inventory flows, business-continuity obligations and termination rights.	High	Manufacturers	Pre-contract	Not Started	10	Pending
RF1-069	Laboratory Qualification	Provide exact legal entity, site, controlled room/floor and current certificate with full method scope annex.	High	Laboratories	No-Go	Not Started	10	Pending
RF1-070	Laboratory Qualification	Provide instrument inventory, model, software, qualification status, maintenance, calibration and redundancy for each proposed method.	High	Laboratories	Pre-audit	Not Started	10	Pending
RF1-071	Laboratory Qualification	Provide analyst qualifications, method-specific experience and training records for payable testing.	Medium	Laboratories	Pre-audit	Not Started	10	Pending
RF1-072	Laboratory Qualification	Provide sample receipt, seal/temperature/weight checks, LIMS traceability, aliquot controls, storage, release and destruction SOPs.	High	Laboratories	Pre-audit	Not Started	10	Pending
RF1-073	Laboratory Qualification	Provide subcontractor list and agree no site/method transfer without prior written approval and requalification.	High	Laboratories	No-Go	Not Started	10	Pending
RF1-074	Laboratory Qualification	Provide complete raw-data access and sponsor/regulator audit rights in the quality agreement.	High	Laboratories	No-Go	Not Started	10	Pending
RF1-075	Laboratory Qualification	Execute limit split-sample testing on at least three representative lots under an approved comparability protocol.	High	Laboratories	Method Qualification	Not Started	10	Pending
RF1-076	Laboratory Qualification	Investigate discordance using complete raw data, prohibit averaging away OOS and uncontrolled/out-of-spec sample.	High	Laboratories	Method Qualification	Not Started	10	Pending
RF1-077	Laboratory Qualification	Provide stability chamber mapping, alarms, backup power, excursion records and disaster-recovery tests where stability work is proposed.	Medium	Laboratories	Pre-contract	Not Started	10	Pending
RF1-078	Laboratory Qualification	Develop new secondary method transfer/verification and create a final method/site qualification report with restrictions and requalification triggers.	High	Laboratories	Method Qualification	Not Started	10	Pending

Ninety-Day Supplier Qualification Programme

Cross-functional documentary review, technical assessment, audit, laboratory qualification, CAPA and board disposition

No purchase or release while a critical/no-go item remains open

Phase	Timing	Activity	Primary Owner	Inputs	Deliverable	Gate	Status	Target Date	Actual Date	Evidence / Decision Note
1	Days 0-10	Freeze product target profile, dosage form, annual demand, registered-market strategy and evidence requirements, issue NDAs and RFIs.	Project Lead / Regulatory	Target product profile and forecast	Approved requirement and one exact proposed claim per supplier	RFI Approved	Not Started			
2	Days 11-25	Verify legal entities, licences, regulator records, dossier references, sanctions/export constraints and adverse-history packages.	Regulatory / Quality / Legal	RFI responses and primary records	Document-completeness score and reject/advance list	Document Gate	Not Started			
3	Days 26-40	Review route, scale, PPO/CPV, impurity strategy, analytical/stability data, cleaning and sterility/device evidence.	Technical / Quality	Technical document room	Product/site technical risk assessment and audit agenda	Technical Gate	Not Started			
4	Days 41-55	Assess material genealogy, capacity, subcontractors, BCP, cold chain, South Africa lane and quality-agreement redlines.	Supply / Quality / Commercial	Supplier map, capacity and logistics data	Approved dependency map and preliminary SAHPRA cap assessment	Supply Gate	Not Started			
5	Days 56-70	Conduct risk-based on-site audits of proposed API and drug-product sites; review native data and adverse cases.	Lead Auditor / SMEs	Audit plan and document room	Critical/major/other findings and preliminary disposition	Audit Gate	Not Started			
6	Days 61-76	Audit laboratories and run blind split-sample method exercise in parallel.	QC / Laboratory Lead	Approved protocol and three lots	Method/site comparability, custody and raw-data assessments	Method Gate	Not Started			
7	Days 71-85	Review supplier/laboratory CAPA, close quality/technical agreements and confirm effectiveness plans.	Quality / Legal / Supply	CAPA and agreement redlines	No critical open finding; acceptable owner/site/supplier effectiveness	CAPA Gate	Not Started			
8	Days 86-90	Cross-functional quality, regulatory, supply, legal and commercial decision board; re-score from verified evidence.	Steering Committee	Complete diligence file	Conditional shortlist, hold or no-go with expiry/reassessment date	Board Decision	Not Started			

AUDIT SAMPLING MINIMUM

Sample	Audit expectation
Recent release batch	Trace from materials and approved vendors through production, testing, release, storage and distribution.
Deviation or OOS batch	Review original data, hypothesis, root cause, relevant sample, impact, CAPA and recurrence.
Reworked/reprocessed or low-yield batch	Confirm authorization, scientific rationale, impurity impact and dossier consistency.
Stability OOT or complaint case	Review trend rules, escalation, product impact, notification and CAPA.
Cleaning-validation run	Confirm worst case, HREL, recovery, sampling, shared equipment and continued verification.
Supplier/material change	Trace qualification, comparability, change control, dossier impact and customer approval.
Sterile additions	One failed/aborted APS if any, one EM action event, and one CCI or particulate investigation.

Supply-Chain Risk Register and No-Go Gates

Risks are product-, site-, method- and lane-specific; numeric score never overrides a no-go condition

Disposition: Monitor / Conditional Hold / No-Go / Closed

Risk ID	Domain	Risk / Failure Mode	Impacted Scope	Likelihood	Impact	Current Evidence	Required Mitigation	Owner	Disposition	Target Date	Evidence / Closure Note
R-001	Regulatory	No SANPRM registration, site recognition or dossier linkage established	All proposed chains	High	Critical	Unknown for every manufacturer.	Commission South African regulatory gap assessment and fix applicable importer/producer/dossier chain	Regulatory	Conditional Hold		
R-002	Legal site	Contract, licence, dossier and actual physical site do not match	Manufacturer or laboratory	Medium	Critical	Public records incomplete for several entities.	Reconcile legal entity, address, building, line, activity and authorized scope	Legal / Quality	No-Go		
R-003	Data integrity	Native electronic data or audit trails are refused, altered, selectively deleted or incomplete	All quality decisions	Medium	Critical	Public DI evidence is weak.	Contract raw-data rights, audit systems, roles, metadata, reinforcement and backups	Quality	No-Go		
R-004	Subcontracting	Undisclosed manufacturing, testing, sterilization, device, storage or logistics subcontractor	All proposed chains	High	Critical	Public subcontract maps are generally absent.	Named schedule, prior approval, audit rights and no further subcontracting	Quality / Supply	No-Go		
R-005	Raw materials	Critical amino acid, resin/linker, side chain or reagent manufacture/country cannot be identified.	Peptide API	High	Critical	Origin and dual-source status generally unknown.	Complete genealogy, risk assessment, second-source plan and safety stock	Supply / Technical	No-Go		
R-006	Single site	Only one validated API or sterile site/chain is available.	Most candidates	High	High	Site concentration is widespread.	BCP evidence, alternate-site milestone, transfer rights, buffer	Supply	Conditional Hold		
R-007	Cold chain	No qualified Asia-to-South-Africa lane or customs-delay simulation	Temperature-sensitive material	High	Critical	Not publicly evidenced for any candidate.	Stock and FIFO Seasonal lane qualification, loggers, backup carrier and excursion decision tree	Logistics / Quality	Conditional Hold		
R-008	Process validation	PPQ/CPV or equipment qualification is incomplete or adverse history is unresolved	CPC, Piramal and others	Medium	Critical	Public 483/VAI history exists.	Review full inspection packages, PPQ/CPV, CAPA effectiveness and recurrence	Technical / Quality	Conditional Hold		
R-009	Cleaning	Shared-equipment carryover/cleaning validation is inadequate.	Multi-product API sites	Medium	Critical	Specific FDA concern at Piramal/CPC-related histories	HBEL-based cleaning validation, worst-case selection and ongoing verification	Quality	No-Go		
R-010	Sterility assurance	CCS, APS, EM, sterilization/depyrogenation, CCI or particle evidence is inadequate	Sterile finished dose	Medium	Critical	Public sterility evidence incomplete	Separate sterile-site audit and full assurance package.	Sterile SME	No-Go		
R-011	Device chain	Component makers, assembly site, dose accuracy or compliant interface are opaque	PFS/pen/autoinjector	High	High	Hybio/Scino device chains require disclosure	Map components and responsibilities, verify device/combination-product controls	Device SME	Conditional Hold		
R-012	Laboratory scope	Accreditation or licence does not cover the exact alternative/methodology	Independent testing	High	Critical	All four labs have scope gaps; Intertek current scope is not-pharma	Obtain full scope annex, audit and method-by-method qualification	QC Lead	Conditional Hold		
R-013	OOS governance	Supplier or laboratory tests into compliance or averages away an OOS	Release testing	Medium	Critical	Public procedures unavailable; Vinita nuance requires review	Quality agreement, case review, raw-data rights and sponsor approval before release/sample	Quality	No-Go		
R-014	Adverse event	Open OAI/import restriction/licence suspension applies to the proposed chain.	Site/product specific	Medium	Critical	Several historical events require current status.	Direct regulator verification and accepted closure before progression	Regulatory / Quality	No-Go		
R-015	Governance	False disclosure, delayed reporting or weak quality governance undermines trust	Sinopap, Hybio and others	Medium	High	Public governance events identified.	Board remediation, DI-focused audit and record reconciliation	Legal / Quality	Conditional Hold		
R-016	Capacity	Purification/lyophilization bottleneck, high utilization or unreserved capacity causes shortage	Peptide API	High	High	Headline reactor capacity may overstate released output	Normalize saleable throughput, reserve capacity and qualify alternate trainline	Supply / Technical	Conditional Hold		
R-017	Geopolitical	Sanctions, export controls, cross-strait/China concentration, customs or insurance disruption	China/Taiwan-linked chains	Medium	High	Material external uncertainty.	Legal monitoring, alternate geography, insurance, exit and transfer clauses.	Legal / Supply	Monitor		
R-018	Change control	Unapproved site, route, raw material, test, device or packaging change conflicts with dossier	All chains	Medium	Critical	Public commitments incomplete.	Prior written approval, regulatory impact assessment and dossier/change governance	Regulatory / Quality	No-Go		
R-019	Research material	Research/non-GMP or brokered material enters therapeutic manufacture	All therapeutic products	Low	Critical	Several groups offer research services.	Explicit segregation, batch genealogy and contract prohibition.	Quality	No-Go		
R-020	Traceability	Recall, returns, quarantine or shipment traceability cannot identify every batch and handoff	South Africa distribution	Medium	Critical	No candidate SA lane tested.	End-to-end mock recall and shipment trace before first commercial supply	Quality / Logistics	Conditional Hold		

Research Source Register

Complete source inventory extracted from discovery, ten manufacturer dossiers and four laboratory dossiers
